

These videos are related to the issue of homosexual agenda and not directed at homosexuals. The church is not against homosexual persons. We do not treat homosexuality any different from other sin. All men are sinners and there is nothing for one person to condemn another. We welcome homosexuals to our church as long as they abide by the Biblical standards and the constitution of the church just as all members are expected to.

We do not demand another standard of homosexuals other than the Biblical standard for all to “Be holy as the LORD our God is holy.” We confess that even we as heterosexuals within the church struggle with our own sexual demons against the sin of pornography, adultery, lust of the eyes, etc. Yet all are expected to “keep the marriage bed pure.” We affirm Biblical marriage as between a man and a woman. We affirm the right of children to experience the complementary relationship of a father and a mother.

We are aware of the dangers of the homosexual agenda which is not about homosexuals but uses the issue of homosexuality to undermine traditional marriage and family. It seeks to bring about lawlessness in society through free sexual experiences. Homosexual agenda advocates network with organisations to promote homosexual agenda in the guise of human rights and equality.

Christians cannot be passive because the devil is roaring to devour our society. We must watch and pray as our Lord Jesus taught us. We must stand up for righteousness without being haughty, arrogant or condemning. Let us speak God’s truth in love. We stand against the homosexual agenda while accepting homosexuals who are Bible believing and living as Christ-centred individuals; just as the rest of us try to.

Watch these videos. Enjoy, learn and be gracious towards others. Do not watch these videos for ammunition to use against homosexuals. I encourage you to watch it to learn Biblical, theological and medical basis for taking a stand on the issues presented. I also ask that you prayerfully seek to understand the struggles of individual homosexual persons so that you are more gracious to their plight without compromising truth. Let us know the worldwide corruption and lawlessness spreading across the world today. Stand up in Jesus’ name!
